Norway Man's Lucky Find

Will Interest Readers of the Advertiser

Those having the misfortune to suffer from backache, urinary disorders, gravel, dropsical swellings, rheumatic pains, or other kidney and bladder disorders, will read with gratification this encouraging statement by a Norway man.

S. C. Foster, barber, Main St., Norway, Me., says: "The public statement I gave about Doan's Kidney Pills several years ago, was right in every particular. I need this remedy, getting it from Stone's Drug Store, and I am glad to say that it is the best one on the market. Sometimes when I catch cold, it settles on my kidneys, and a few doses of Doan's Kidney Pills give me relief."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Foster had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

A Really Tasteless
Castor-Oil at Last
Something That Science Tried to Get for 3000 Years.
Good bye, drugs and pills!
The perfect laxative has arrived—Kellogg's Tasteless Castor Oil—made tasteless by a method which chemists have tried to find for 3,000 years. This is not a flavored or disguised castor oil. It is just pure castor oil without taste or odor.
Kellogg's Tasteless Castor Oil is a better castor oil than the old evil tasting, evil smelling kind. While none of the taste remains, none of the good has been taken out. Kellogg's Tasteless operates quickly and freely, without griping, causes no gas, and does not turn the stomach. Children take it easily and retain it.
The drug stores have all been supplied. You have only to ask for Kellogg's Tasteless Castor Oil, 25c or 50c size. It is not sold in bulk. The trade name is a green seal on the label, bearing the Kellogg signature.
Made only by Spender Kellogg & Sons, Inc., Buffalo, N. Y., refiners of vegetable oils. 51

HOW TO TAKE GOOD
CARE OF YOUR HAIR
Nothing spoils your good looks so much as homely hair—stringy, dull-colored, harsh. Nothing adds to good looks so much as beautiful hair—soft, silky, wavy and glossy.
How beautiful your hair is now, you can improve its good looks by using Harmony Hair Beautifier. If your hair is homely and ugly now, Harmony Hair Beautifier will make it softer, silkier, glossier, more beautiful in every way. It also makes it easier to put up and helps it to "stay put." Its rich rose odor hides the unpleasant, oily smell of the hair. Harmony Hair Beautifier is rightly named; it beautifies the hair.
Very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair, nor darken gray hair—and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich, lather that immediately penetrates to every part of hair and scalp, insuring quick and thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet-smelling cleanliness.

ARIZONA KICKLETS

The Editor of the Publication Explains His Position.

NEVER OUT FOR MONEY.

Points Out That Swindling Advertisements Never Appear in His Paper No Matter What the Inducements. Doesn't Aspire to Be "Dictator."

By M. QUAD.

[Copyright, 1913, by Associated Literary Press.]

WE have often been asked why we started the publication of the Kicker, and we have had but one answer to give—for our health's sake. We return the same answer when asked why we continue its publication.

We have never been out for the money and never shall be. From our childhood up to date we have always had a fatherly interest in the public, and that feeling has grown with the passing of years. As an editor we can protect the public far more than we could if owning and running a sawmill.

No swindling advertisements have ever appeared in the Kicker, and none ever will. We personally own seven mountains, 40,000 acres of desert land and thirty-nine caverns and could swindle all New England, but we have steadfastly refused to unload on a confiding public. They trust us and are never deceived.

Not only as mayor, but as editor of the Kicker (circulation almost 3,000,000,000 weekly), we aim to keep a fatherly eye on Givemad Gulch itself. About once every two months we make a tour of the town and a general cleaning up of things that shouldn't be.

We do this from goodness of heart alone and not because we aspire to be a dictator. We don't want to be pointed out as the big "It." We haven't the slightest idea that we own the town or that things have got to go as we decree. Those who charge us otherwise do us a great injustice.

At an early hour last Wednesday morning we buckled on our guns and went hunting for an individual named Idaho Sam. He arrived here four weeks ago and announced that he was a holy terror, and he has since made a nuisance of himself. We found him after half an hour's search and tendered him his choice between hitting the trail and hanging. He started to argue the matter, but we got the drop on him and as a result the midday sun shone down on him as he rested on the far side of Wolf creek.

Our next visit of state was paid to Mr. C. I. Flint, attorney at law. Mr. Flint is of that class called shysters. He was disbarred in Chicago and came out here to make a fresh start. His doings have been unsavory, and he has neglected to take advantage of little hints thrown out by us from time to time. When we called and announced to him that he must pull his freight he grabbed for a shotgun in the corner of his office, but soon thought better of it and agreed to change climates. He went that night. In his new location we wish him well.

Three months ago Dr. Barnes hung out his sign on Apache avenue. Before he had been a week in practice we learned that he knew nothing about medicine except what he learned in a sawmill. We decided to give him a chance, however. Out in this country we feel that every man is entitled to at least one fair show. Dr. Barnes had made a botch of it at setting broken limbs and diagnosing cases, and it was time for him to move on. We stated the case gently but firmly, and he replied that he had been expecting it and was glad to go.

When Mr. John Taylor arrived in Givemad gulch six weeks ago he gave out that he was looking for a place to establish an orphan asylum. He was offered sites on the mountains and on the plains, but he seemed to lose interest. It soon developed that he was simply a good natured sort of deadbeat. There has been no particular harm in him, but as he was breathing ozone rightfully belonging to some one else, he was asked to move on. He moved. There were tears in his eyes as he went, and his last words were that this was a cold old world.

AT REST.

They were passing through a graveyard. Mid the monuments so white. And were reading the inscriptions. As they glanced from left to right.

And they stopped beside a green grave. Where were flowers of the best. And read beneath a woman's name. The simple words "At Rest."

"'Twas time that Mary had a rest," Said one who stopped to weep. "She never had a chance to rest Nor got a good night's sleep."

"With her husband and her babies And the house to keep aright. Why, the poor soul had no moment. For her comfort day or night."

"Must feel good to her to rest once After all those weary years. With their burdens and their labors And their troubles and their tears."

"Lovely flowers they have placed there. At her foot" and at her head. What a pity that they waited Until Mary dear was dead!"

SKIMMILK NUTRITIVE.

Those who think skimmilk has little nutritive value have another guess coming. Of course it's not so yellow and frothy because the cream, or fat, has been removed. But that's just like trimming the fat off a ham steak—the lean, or valuable food constituents, remain.

Skimmilk still contains the nutritious substance, or building material, the protein that makes for muscle, blood, frame, life.

Skimmilk, however blue looking and distasteful to epicures, is healthful, strengthening food for man and is ex-

DRINKING SKIMMILK.

cellent for fattening fowls and growing stock, being so easily digested and quickly turned to growth.

The Indiana experiment station recently proved its worth as a grower for young chickens.

Two lots of young Rocks and Houdans a month-old were given the same grains, greens and meat foods, and in addition half of them received all the skimmilk they could drink.

It was soon discovered that the lot fed skimmilk had a better digestion, ate more of the mixed food and made a more satisfactory growth. Their others gaining but 2.62 ounces per week.

The most rapid growth occurred when most skimmilk was consumed. Skimmilk is especially good for chickens in hot weather, but chicks must be kept out of it, as it is a detriment when dabbed on their plumage, and the vessels must be sealed often to keep them sweet.

The vessel shown is excellent. Chicks and dirt cannot get into it. Only a small quantity is exposed at a time, and the milk is kept shaded and cool.

DON'TS.

Don't kick the bucket over one failure. People are making mistakes every day, but it's only fools that make the same mistake twice.

Don't go into the poultry business without practical experience unless you have plenty of money to spend for your mistakes.

Don't forget to clean up that poultry yard, and this doesn't mean just raking. Filthy ground should be removed and replaced with fresh, or it should be plowed under and planted to quick growing greens.

Don't let a wounded fowl remain with the flock. Hens will sometimes eat the whole comb off a rooster that has been injured by fighting.

Don't let the turkeys take care of their lice. You'll be taking care of their remains if you do.

Don't let squabs sit in filth. It's a sin, a shame, an infame and insane method.

Don't try too many side issues along with your poultry. Too many irons in the fire prevent many from doing one thing well.

A. E. Morse of South Paris, succeeded Rev. J. H. Little as Chaplin of the State Grange.

WEST PARIS.

There was a good attendance at the Saturday morning of the Grange, Saturday. Sixty or more were present. The program of entertainment was in the forenoon and was the last in the contest. Mrs. S. T. White's side furnished the program which consisted of a call of Christmas and other greetings, a piano solo by Mabelle's "Everybody," a song, "Don't You Cry Me Honey," by P. A. Ladd and a song and reading by Mrs. Cora Stearns, a reading by Mrs. Phila Shedd, an original story by O. S. Marshall, and other readings, a piano solo by Wood, the subject of which was sung to her by a laments which she had been suffering and a kind sympathizing neighbor and impersonated herself as a crippled man. Following is the poem:

The Cripple's Love.

I often sit at my window And dream the live-long day. And wish for some neighbor, Who lives just over the way. My neighbor is fair and comely, With eyes so bewitching blue, And I think of how I could love her, And to her be ever true.

She smiles as she gazes upon me And waves her hand white and thin. To me she is the dearest, The sweetest in all the land. I can never tell her I love her, Such joy is not for me. For I am a helpless cripple, And she feels only pity for me.

But as she stands where the sunlight falls On her rippling face, I know, I know how dearly I would love to bear The pain that racks me so.

So from afar I will worship And dream my love away. And all of my heart's richest treasure Will I gladly lay at her feet.

May Heaven guide and bless her, May earth's greatest joys and blessings Be hers till the end of time. And when God, in his infinite mercy, Takes my poor crippled body from pain, I shall stand ready for the trial, And watch for her face again.

And perchance, as I await her coming, Her pity, to love, will have grown; Then our souls may wander together Through the paths of Great Unknown.

There was also an alphabetical crostic commencing with the letter M by another member and is as follows:

It is for Mrs. W. C. L. N. is for Nobody, that means me. O is for Ourselves, motto for all. Q is for Question, we can decide. R is for Right, there we abide. S is for Sisters, and Sisters is our aim. T is for Ticket, we vote just the same. U is for Union, the our strength lies.

Mrs. Wyman also had a few Christmas sentiments which she had composed, and read them. At the close of the meeting when the points were reckoned up and the two sides compared it was found that Mrs. D. A. Ball had won the contest by over 1,300 points. It was thought that the attendance which scored the most points had not been so good on the losing side, therefore the reason for the greater part of the gain on the winning side. As a penalty the losing side was to arrange the program for Dec. 27th, the last meeting of this year. Dinner in the dining hall was a merry time. The afternoon was spent in balloting for the new year's officers. Master C. S. Dudley was re-elected for a third term which is a compliment to him in that it shows that he fills the chair satisfactorily. There was a good corps of officers under him selected all of whom will be announced later.

CATARRH OF THE PHARYNX.

Clearing out your throat every day, all day. That is what you have been doing for months. Possibly years. A little mucus covers the pharynx. If you were to go to a doctor he would tell you that you have pharyngitis. If you were to look into your own throat you would find just back of the soft palate a red, lumpy, granular appearance of the back part of the throat. Pharyngitis the doctors call it.

Perhaps he would call it, follicular pharyngitis. It causes you constant annoyance. You are always making slight disturbances when seated in an audience. Can't hold your throat still. Stringy mucus bothers you. Worse in the morning.

A-hem! A-hem! A-hem! That is the way you are going nearly all day. Sometimes in the night when you wake up. You ought to gargle your throat with salt water every morning. Cold salt water. That clears out the throat perfectly and makes it ready for treatment.

Peruna is the treatment. Begin with a teaspoonful before each meal and at bedtime. Try it for a week. You will be convinced. Of course, Peruna will not entirely relieve you in a week. That is too much to expect of any remedy. But it will benefit you so much you will be convinced. Yes, it will. It has done this many times.

Follicular pharyngitis. Big words. Almost as bad as the disease. But if you take Peruna for one month regularly, you may forget that you ever had such a disease. Then you will have a perfect right to forget the big words too.

People who object to liquid medicines can now obtain Peruna Tablets.

KEZAR FALLS.

Thomas Page is sick; also Nettie Weeks.

Mrs. Gardner Davis has gone to Winthrop to spend the winter with her sister, Mrs. Newcomb.

Mrs. Geo. Mason was called to Freedom by the serious illness of her daughter, Mrs. Nathaniel Currier.

The Methodist Bazar held in the Town hall Wednesday and Thursday was a great success. The hall which yields itself most gracefully to decoration was resplendent in colored lights and red, white and blue. The booths presented a most attractive appearance and the different departments met with eager purchasers. About \$800 dollars was realized.

Apart from the pecuniary success, the sociability and general good fellowship prevailing counted for much. Edgcomb's orchestra and the Kezar Falls band proved themselves great promoters of cheer and harmony.

HOW TO AVOID COLD-WEATHER DISEASES

To prevent cold weather diseases, put your body into a proper healthy condition to successfully resist them. Colds, grippe, bronchitis, pneumonia, catarrh, typhoid fever, rheumatism and other ailments may be escaped in most cases, if this is done. Build up your health and strength—your nerves and blood and entire body—into such shape that you can count on good health all during the winter months—by taking Rexall Olive Oil Emulsion, the ideal blood, nerve and body builder.

This is a remarkable medicine, but a common-sense one. It doesn't stimulate. So-called "tonics" that stimulate give you no permanent relief, but leave you worse off than before. Rexall Olive Oil Emulsion contains none of these harmful, stimulating ingredients, such as alcohol and dangerous and habit-forming drugs. Its great benefit to you is through its real nerve and blood and body-building effects. It nourishes, builds, strengthens. Its merit does not rest on making you feel better for a few minutes at a time after taking it, but on making you feel better as a result of making you well.

Rexall Olive Oil Emulsion is the ideal blood and nerve-food tonic. You who are weak and run-down, and you who are apparently well now, but are liable to suffer from various cold weather ailments, use Rexall Olive Oil Emulsion to get and keep well and strong. For the tired-out, run-down, nervous, emaciated or debilitated—the convalescing—growing child—aged people—it is a sensible aid to renewed strength, better spirits, glowing health.

Rexall Olive Oil Emulsion—king of the celebrated Rexall Remedies—is for freedom from sickness of you and your family. You'll be as enthusiastic about it as we are when you have noted its pleasant taste, its strengthening, invigorating, building-up, disease preventing effects. If it does not help you, your money will be given back to you without argument. Sold in this community only at our store—The Rexall Store—one of more than 7,000 leading drug stores in the United States. Canada and Great Britain.—F. P. Stone, 149 Main St., Norway, Me.

BETHEL. New Reservoir. The Bethel Water Company have completed their cement reservoir on the easternly side of the hill. The place that is 15 feet lower than the Chapman brook dam.

The reservoir is circular in shape and has a capacity of \$800,000 gallons; the top has a covering of 9 inches of cement over which a thickness of earth so that no impurities can enter from above and it will keep the water cool in summer and prevent its freezing in winter. The inflow is regulated by a float valve and the outflow by a check valve. A charge of about 7 pounds pressure will cause the check valve to open, but generally the supply will come from the Chapman brook side. A series of gates allow for cleaning out the bowl and also for the repair of any part.

The water Company should be commended for this improvement in its system, on their own record without being requested by the village corporation or by any insurance Company. They have given Bethel a water service that cannot be excelled by any town in the state.

A CHECK FOR CHRISTMAS

Money is a particularly agreeable present to receive at Christmas, or any other time for that matter.

In making a present of money the form is important. Currency (bills and silver) does not seem to be just the thing. Gold coin is hard to get and is not convenient.

A check on your bank for the amount you desire to give is just the thing.

In order to give such a present you must have a bank account. It is worth starting an account just to be able to use checks in all your payments.

Hundreds of depositors nearby and hundreds miles away place their money here because of the strength and standing of this institution.

Bald at 35

Cleanse the Scalp; Nourish the Hair and Never Grow Bald. Use Parisian Sage.

Don't grow bald at 35 as thousands of men do—yes! and women also. Effort to keep the hair properly nourished and the scalp free from dandruff is one of the main causes of baldness.

If your hair is thinning out immediately action is necessary. Parisian Sage is just what you need to remove dandruff, stop falling hair and itching scalp and make the hair strong, beautiful and vigorous.

This delightful and refreshing hair-tonic which is now sold at druggists and toilet counters in 50 cent bottles, is rigidly guaranteed. If Parisian Sage does not give complete satisfaction Noyes Drug Store will return your money.

Birthday Surprise.
A very pleasing surprise was given to W. A. Manning, Thursday evening, when Herman Holt went to Mr. Manning's house with his team and told him that there were some of the Rebelebs at the hall and wanted him and his wife to come. After some persuasion he consented and they went to the hall where a large crowd had gathered. They led him to the front of the hall and seated him in a large rocker. The friends had purchased for him. M. M. Hamlin was called on and presented Mr. Manning the chair in honor of his birthday, which was the next day. Mr. Hamlin made pleasing remarks and spoke of the many changes since Mr. Manning first saw the light. After the remarks Mr. Manning expressed his surprise and kindly thanked all.

R. M. McKee gave a reading, then Mr. Hazel Wadsworth, at the piano and Newell Andrews with violin played a march and old and young formed on the floor with Mr. and Mrs. Merton Hobson as leaders. Other dances followed. Refreshments were served of sandwiches, cakes and coffee, which all did good service. It was certainly a very pleasant occasion for all as well as for Mr. and Mrs. Manning. That they may live to enjoy many more of his birthdays is the wish of their many friends.

The portable mill on the Christopher Allen lot and near Hubbard Hill has nearly finished sawing the timber, and it is understood that the mill will be moved to the Samuel L. Clement lot on the south-west side of the road, now owned by Wm. Tucker of Standish.

This farm was first settled in June, 1777, by Capt. John Lane, a captain of the Revolutionary war. He also succeeded his father, Capt. John Lane, Sr., as a captain in the French and Indian war. His house was between the road and the river, on the slope of the hill, easterly of the present lot, which is the oldest in Hiram. It is known that it was occupied in 1792. The late Capt. Andrew R. Bicknell informed the writer that when he came to the farm in 1841, there was half an acre of land between the road and the river, where there is now a precipice, nearly one hundred feet high, leaving just room for the road between the brink and the railroad. The cellar of the old Lane house was swept away in the great freshet of October, 1869.

The Selling of Apples.

By a Dealer.

My attention has been called to the article of Nov. 28th, where Prof. Yeaton is quoted as saying: that R. L. Cummings, J. M. Millett, Hiram Heald, C. L. Case, L. O. Smith, Sydney T. Brown, A. O. Perham, Henry Bonney and Chas. Berry sold their apples for \$3.00 per barrel for Baldwin and Spies No. 1 and No. 2. That the Indian Head Fruit Growers' Association of Hebron sold their No. 1 and No. 2's of same varieties for \$4.00 and The Oxford Bar Assn. received \$4.50 for the same grade. So you see the association got the highest price. The most of these apples were sold to C. O. Barker of Auburn, for shipment across the water. I have known Prof. Yeaton for several years and it goes with all that know him that he is misquoted. In fact I can almost realize that the reports had no strong intentions, but I will call upon all of the aforesaid people and respectfully inquire if this does not remind them of a child's tale of the things he saw and heard in the big woods.

What is the object of our Pomological show, and what we do and say about the apple industry?

I assume that, primarily it is to benefit the industry by giving people a chance to learn things that are so. As many of the readers know I have been a grower and dealer in apples for 25 years. I approve of people shipping their own apples for the purpose of learning things that are so, if they can afford it and if they are honest and intelligent they will learn things and will admit the truth. Now and then a man will be like the man we used to hear about in the old reading exercise. He thrust his fists into the mist, and hits against a post, but still insists he sees the ghost.

What have the associations learned from their experience in packing and shipping their apples last year? Three of them say they would have realized more for their fruit had they sold it at home. One says we started in with a wrong theory of how to sort our apples.

According to the above quoted statement, all of the associations are selling here this year. I think this is about three-fourths correct.

But let us suppose that Mr. Barker did buy the lions share of the above mentioned apples at from \$3.00 to \$4.50 per bbl. for No. 1s and No. 2s.

I wish to present to you a list of the new apples sold abroad by some of the largest and most reliable dealers in American apples; they are the nets s.o.b. steamer in Boston, and if you wish to know how much they would have net the grower at home, deduct about 50c per bbl. from each one for packing and freight and you have got about what the run would receive if the apples grew in the state of Maine.

Of these 106 different consignments, 56 lots net less than \$3.00 per bbl., the lowest being \$1.40; 50 of them net from \$3.00 to \$3.99 per bbl., only 20 of them being above \$3.50.

Suppose Mr. Barker or some unfortunate buyer had bought all of these apples at \$3.00 per bbl. to say nothing of \$4.50 and he had refused the price of \$3.00 per bbl. on board ship in Boston, which is much above the average, and he had thrown in his own services, he would have lost about 50c per bbl. upon each bbl.

These nets represent the sales of approximately 25,000 bbls. You will see the loss would be \$12,500.

The people that have the floor in this teaching people to cooperate are directing people to cooperate and save for themselves the profit that Mr. Barker and men like him get, and to them all of these men that come around and pay their cash for apples and take this hazardous risk are considered an enemy.

This point I wish to bring to the attention of sensible men is this: you can't make money by cooperating against the part of a trade where there is no profit.

A pertinent question is where can we save money by cooperation? The charges of transportation and tolls upon every one of those 25,000 bbls. are about \$1.00 per bbl. before the apples are sold.

Here is where we can do some effective work.

Here is the place where we can by intelligent work save a million dollars a year to the apple industry, but it will not be done by people that cannot see the mark, firing at random.—R. L. Cummings.

SOUTH WATERFORD.

One of Our Girls.

Portland, Dec. 12, 1913.

It was a novel sensation for the few personal friends of Alice May Hamlin, who were present on the occasion of her first public recitation in this city at the Pythian Temple last evening, to find themselves quite out of sight in the great audience of citizens who had come out to celebrate the debut of our "Sweet Alice" before a large company of men and women educated by years of familiarity with the artistic oratory and music of the best examples of our times and who seemed to have discovered a rare, new find, not a diamond in the rough, but a polished, brilliant gem, fitting to be admired by the most exacting seekers for bright novelties in the realms of art and literature.

Less than two months ago Miss Hamlin came to Portland from her South Waterford home to commence a course of instruction in the fine art of vocal expression known as elocution or oratory for all persons desiring to cultivate their native gifts of speech and taste for elegant, graceful rendition of original or selected expression by the voice.

ALICE MAY HAMLIN

She had previously arranged to locate her home at the handsome new Los Angeles Apartments on Cumberland Avenue, where she has been only a few weeks past, receiving her daily growing class of pupils and making friends who appreciate the importance of her scheme for extending the benefits of her system of instruction to all her patrons.

The establishment of this school is the culmination of a long cherished plan during the years of her patient efforts to perfect herself in the various branches of her favorite study, and in later years, while engaged in the responsible duties of a teacher and preceptress at the Maine Woman's College at Kent's Hill in our own state, and in the Mary Baldwin Seminary at Staunton, Va., five years in all in practice and mature preparation for her chosen career as a teacher and demonstrator of her ripe professional attainments. Miss Hamlin was assisted by Bessie Talbot Salmon, soprano, and Sarah F. Bagley, accompanist, of Boston.

The art reporter for the Daily Press, after profuse encomiums of Miss Hamlin's personality and professional accomplishments, spoke highly of Miss Salmon and Miss Bagley as entertainers.

WEST FRYEBURG.

Mrs. Shuah Farrington Lewis, Mrs. Shuah Lewis died, at 11 P. M., Friday, Dec. 5th, of pulmonary tuberculosis, after a long and distressing illness at her late home in East Conway just over the state line in New Hampshire. Shuah Farrington, born Sept. 14th, 1841, was one of seven children of Caleb Farrington and Dolly (Walker) Farrington, two of the families earliest and most esteemed settlers of this part of the town, Stephen Farrington having served as a soldier in the Revolutionary war, of whom Shuah was in direct line of descent.

Besides attending the district schools in her neighborhood, Mrs. Lewis was a student of Fryeburg and Bethel academies and spent some terms in teaching in her home section, previous to her marriage with Mr. Lewis which occurred Mar. 18th, 1869, since which her home has been the Lewis home of Conway, N. H., where in 1904 her husband died. Mr. Lewis was a soldier in a New Hampshire regiment during the Civil war and incurred disease from which he never fully recovered though he lived several years after the close of the war.

Within two years of the death of her husband, Mrs. Lewis was bereft of her first born son whose wife had previously died leaving a marionette girl to the care of her grandmother, who has given her motherly care and affection in the years past.

Mrs. Lewis is survived by her son, Walter P. Lewis, a grandnephew, Marion Lewis, two sisters, Betsey Walker Farrington, who has been a faithful assistant in the years lately past in her home, and by Mrs. Sarah F., wife of Capt. Wm. Wiley of Peabody, Mass.

On Monday at 2 p. m., funeral services were held at the Lewis homestead, where Rev. Baman N. Stone, a life long friend, and pastor of the New Church, Fryeburg, was officiating. Clergymen, The Revs. John A. Andrews and Arthur Shirley of Conway, N. H., and Henry Andrews and Dean A. Ballard of West Fryeburg. Old Santa Claus is coming
With pack upon his back,
His enjays have called on us
With overcrowded sack.
They've left some gifts for mother,
There's sheeting, fruit and fish,
And a pound of tea or coffee
With pretty shaped new dish.
For father there are socks and leggins
And boots that reach the knee,
A pair of gloves and mittens,
A shirt and new T. D.
For brother there's a jack-knife
Some fish hooks with strong line,
A level, axe and shovel,
And feed for all his kine.
For sister there is candy,
In boxes large and small,
There are cheese chips, olives, dainties,
'Tis hard to name them all.
Yes, Santa's bells are ringing
His sleigh will soon be here.
All brimming o'er with gladness,
With gifts and Christmas cheer.
